

CAN Capacity Calculation - Planter -

	20/20 – Gen2	20 20 – Gen3
Rows (or less)	SRM Products*	Required CAN Networks**
16	>12	1
24	6.5	2
36	3.5	3
48	2.5	3
54	2	3
72	NA	3

Gen2 Product Rules:

- * Gen 2 CAN lengths exceeding 130' must utilize a CAN Booster. CAN Booster is **NOT** a benefit on shorter CAN lengths.
- * Load Pins (even without **DeltaForce**) count as 1 product.
 - **DeltaForce** cylinders DO NOT count as another product.
- * **SpeedTube** counts as 0.5 products.
- * Each **vApply** or **FlowSense** system counts as 1 product (Row by Row HD, Section HD, or FlowSense Only)
- * **vDrive** and **vDrive Insecticide** count as one product each.
 - **mSet** and **vSet Select** each count as an additional product on top of vDrive
- * **SmartFirmer** installed -
 - every 4 rows = 0.5 products
 - every 2 rows = 1 product
 - every row = 2 products

** 20|20 Gen3 does **NOT** support the CAN Booster.
